“Caring for you, wherever you are”

PRESS RELEASE – 5th July 2010

**GLS Catering & Services awarded catering and services contract
by Alpha Offshore Drilling Services Company**

It gives us great pleasure to announce that we have signed a new catering and services contract with Alpha Offshore Drilling Services Company in Côte d’Ivoire.

Within the framework of this contract which was signed on 1st July 2010, GLS Catering & Services will provide a full range of catering, housekeeping and facility management services on the Atwood Beacon offshore platform.

Ever since our company was set up our main goal has been to look after the wellbeing of our clients’ employees, preparing tasty and appetising dishes from varied and balanced menus.

The meals, snacks and beverages that our professional catering staff will serve up on the Atwood Beacon platform will be of the highest standard to which our clients have become accustomed, whilst with our laundry, cleaning and housekeeping solutions we will endeavour to make their working environment a veritable home from home.

“Our group is going from strength to strength in numerous locations across the globe, but even so we have not lost sight of our African origins and are delighted to be involved in this particular project in Côte d’Ivoire where our company was born”, enthused Mr Moussa Diomande, CEO of GLS Catering & Services.
